

**Heather B. Long, MSN**  
Chief Executive Officer  
UF Health Central Florida

**UF Health Leesburg Hospital**

UF Health Leesburg Hospital has been serving the health care needs of our community for 60 years. The American College of Cardiology has recognized UF Health Leesburg Hospital for its demonstrated expertise and commitment in treating patients with chest pain by awarding Chest Pain Center Accreditation with Primary PCI and Resuscitation – its highest and best level of accreditation. UF Health Leesburg Hospital also offers advanced orthopaedics, award-winning stroke care, innovative robotic-assisted minimally invasive surgery and emergency services, as well as labor and delivery care.

The hospital is part of UF Health Central Florida, a not-for-profit health care system and the largest, most comprehensive provider of health care services in the region. UF Health Central Florida provides inpatient acute hospital services at UF Health Leesburg Hospital and UF Health The Villages® Hospital, inpatient rehabilitation services at UF Health The Villages Hospital and diagnostic laboratory services at several locations. We take pride in providing progressive, innovative technology, along with building strong relationships with patients, families, physicians and residents of the communities we serve.
