

UF HEALTH PEDIATRICS PEDIATRIC PRIMARY CARE, SPECIALTY PRACTICES AND PROGRAMS

PEDIATRIC PRIMARY CARE

Your child's medical team

At University of Florida Health, our pediatric primary care practices offer a comprehensive medical team to manage your child's medical care. The team may include the attending physician, who is a faculty member at the University of Florida, resident physicians, nurse practitioners, medical students and nurses.

At UF Health, you have access to the most advanced resources and services of the leading health care providers available in north central Florida.

Scheduling

When scheduling your first appointment, your child will be enrolled with one of our pediatricians, who will see your child for all well-child and health maintenance visits.

We ask that you arrive 15 minutes before your scheduled appointment time. You may need to fill out paperwork or update your records.

Also, please notify us of any changes in your address, phone number or insurance carrier.

Payment

We accept many types of insurance, as well as several Medicaid plans. Our financial representatives are available to assist you with any insurance questions you may have.

If you are responsible for paying all or a portion of your child's health care costs, payment is expected at the time of your visit.

After-hours calls and appointments

For urgent questions about a sick child when offices are closed, please call your regular pediatrician's number to reach a nurse or doctor at UF Health Pediatrics After Hours. If your call does not go through, you may try the direct UF Health Pediatrics After Hours number at 352.265.0724.

Most urgent illnesses can be seen in one of our primary care practices or by UF Health Pediatrics After Hours located at UF Health Shands Children's Hospital. You can access it through the Pediatric E.R. These visits are by appointment only.

UF Health Pediatrics After Hours is a collaborative effort with community pediatricians and UF Health pediatricians treating children with urgent primary care needs.

Services offered

- Well-child and sick visits | Immunizations | Newborn care | School and sports physicals
- Adolescent care | Breastfeeding medicine | Hearing and vision screening
- Attention deficit hyperactivity disorder (ADHD) and child development | Pediatric fitness
