$10.6

Our commitment as a responsible, accountable steward of our resources is the cornerstone of the UF Academic Health Center’s not-for-profit mission.

Our teams at the UF Health Science Center and Shands proactively reach out to area residents beyond the walls of our hospitals, outpatient practices and classrooms to share valuable information about healthy living, illness prevention, medical treatments and disease management.

Shands contributes funds and employee resources (time and/or space) to numerous community agencies that help people improve their health, wellness and quality of life.

Medical miracle workers exist in every graduating class at the UF Health Science Center because of the teaching and learning that occurs every day in the colleges of Dentistry, Medicine, Nursing, Pharmacy, Public Health and Health Professions, and Veterinary Medicine.

As a private, not-for-profit organization adhering to state statutes, Shands is responsible for providing support to the UF Health Science Center and other universities for educational and research activities that benefit residents throughout the state.
